Website Results Updated

The official certified results of the March 17, 2020, Presidential Primary Election are available online at [https://elections.bcoho.us/past_election_data/2020 - 2029.php](https://elections.bcoho.us/past_election_data/2020_-_2029.php)

The official certified results posted to the Board of Elections website on Tuesday, May 19, 2020, were posted with overall correct turnout numbers but provisional ballot votes were not included in the individual race counts due to an oversight in processing the results for the website between the Butler County Board of Elections and our election night reporting vendor. The Board of Elections will institute a new policy to verify website results before they are posted in the future. This will involve proofing each race to make sure the file uploaded to the website matches the tabulation system prior to posting the report.
